

Lofthus frukt og saft - module assignment

System must :

- Must be able to buy products online
- Must view information about the products
- Must have contact information in case of questions
- Login to access order
- Photos so the customer can view the product

Theme :

- Product
 - As a customer I want to know about the product, how it is made and how much it costs.
 - Contact form
 - As a customer it would be nice to have a contact form if I have any questions or want to search for a job at the company
 - As a customer I want to know the nutrition content in the product
 - Information
 - As a customer it would be nice to see what nutrition is inside the product and maybe compare to other products at the site.
 - As a customer I can contact the company if I have any questions about the product or the production
 - Contact site
 - As a customer it would be nice to have an email address, phone number, or a online chat to contact the company.
- Promote and sell products
 - As a customer I want to buy stuff easily online so I don't have to get out of my house, and the price have to be in range of what I am willing to pay for fruit and juice.
 - Order information
 - As a customer it would be nice to have an form about the order information, so I know how much it costs to get the product delivered to my house
 - As a customer I want to see the product on the site, so I know how it looks like.
 - Photos

- As a customer it would be nice to see the product on the site
- As a customer it would be nice if the site have customer reviews so I can read of what other people think of their products.
 - Review page
 - As a customer it would be nice to read what other people like or did not like about the product.
